OOH Industry Focus

Specialised software solutions for the Out of Home (OOH) Outdoor Advertising sector.

Our deep industry expertise enables us to develop software that addresses the **operational, inventory, and management challenges** faced by media owners.

- ✓ **Market Leaders:** Partnering with leading media owners across South Africa's major economic hubs.
- ✓ **National & International Reach:** Serving key media organisations across South Africa, Southern Africa and international markets.
- ✓ **Tailored Workflows:** Configuring solutions around client inventory, infrastructure, and sales cycles.

Core Capabilities & Services

Custom Software

Bespoke software development across web, desktop, and mobile platforms tailored to specific enterprise processes.

OOH Advertising Systems

Complete end-to-end media management software solution for outdoor advertising inventory, operations, and rollouts.

Tech Startup Scaling

Partnering with technology startups to establish strong foundations, develop tailored solutions, and scale effectively.

IT & Network Support

Providing essential network support and IT infrastructure services to guarantee seamlessly operating systems.

End-to-End System Deployments

Bespoke Customisation

Every solution is tailored to fit seamlessly into each customer's specific operational landscape.

- ✓ Customisation aligned with unique inventory models
- ✓ Adaptation to existing enterprise infrastructure
- ✓ Aligning system logic with core business processes

Full System Rollouts

Complete, end-to-end project management and software integration for hassle-free deployments.

- ✓ Track record of high-impact completed rollouts
- ✓ Minimized operational downtime during transition
- ✓ Continuous ongoing system maintenance and IT support

Growth & Strategic Reach

2014

Established

Over a decade of continuous development excellence and innovation.

3X

Team Expansion

Tripled team capacity and expanded multidisciplinary engineering skills.

20+

Years Experience

Collective mastery across mobile, web, desktop, and network infrastructure.

Geographic Footprint: Serving prominent media owners across South Africa's key economic hubs, with enterprise deployments across Sub-Saharan Africa and international markets.
